SMART HOSPITALITY SOLUTIONS

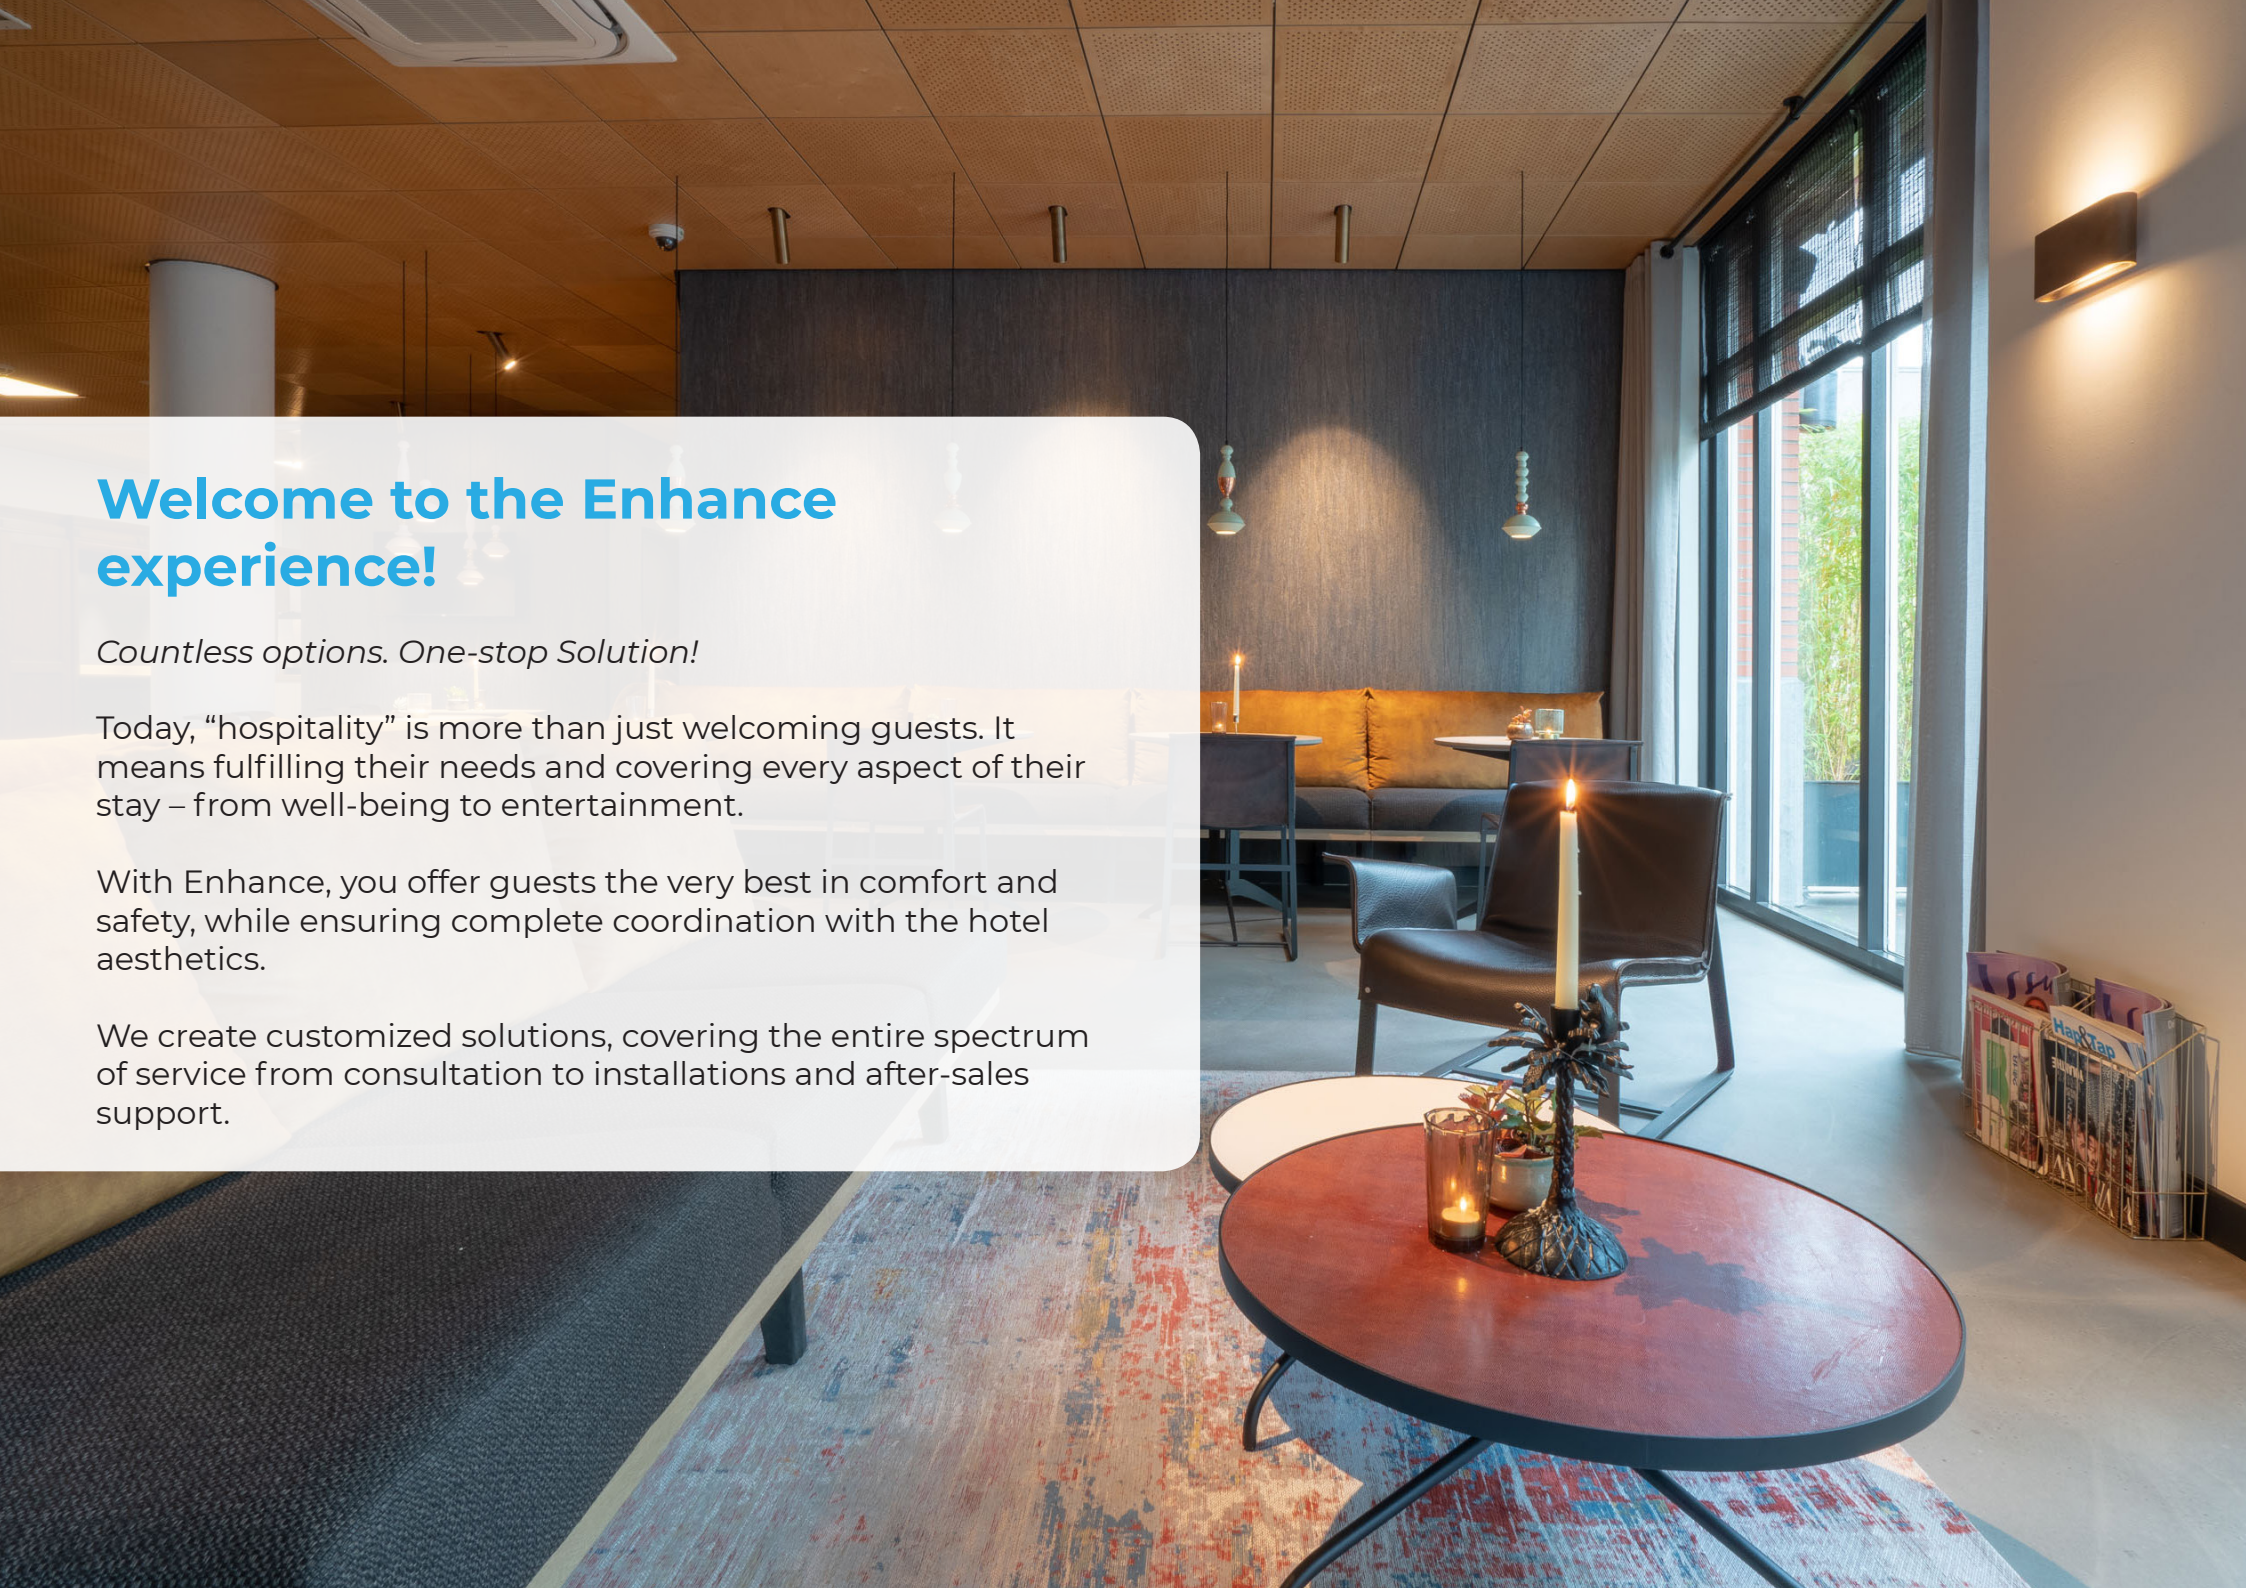

Welcome to the Enhance experience!

Countless options. One-stop Solution!

Today, “hospitality” is more than just welcoming guests. It means fulfilling their needs and covering every aspect of their stay – from well-being to entertainment.

With Enhance, you offer guests the very best in comfort and safety, while ensuring complete coordination with the hotel aesthetics.

We create customized solutions, covering the entire spectrum of service from consultation to installations and after-sales support.

A close-up photograph of a hand in a dark sleeve turning a modern, silver door handle on a light-colored wood-grain door. The background is a blurred hotel room with a bed, a lamp, and a window.

For all types of Hotels

Each hotel has specific needs to be met during the design, construction, and maintenance stages. Built to deliver comfort, safety and energy efficiency, our solutions also offer the very best in design with ample scope for customization.

Enhance Hotel Locks

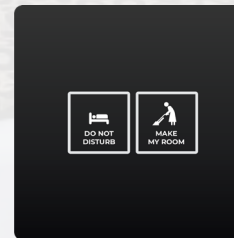

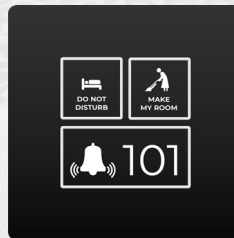

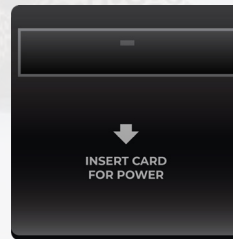

Bid adieu to the conventional locking system and upgrade the security of your doors with our innovative locking solutions. Give your guests the convenience to operate the doors via magnetic cards that can be programmed based on the duration of their stay.

Enhance Standard Budget Hotel

Enhance Standard solutions enable efficient energy consumption through the key card switch which saves energy when the room is unoccupied.

The service panel and corridor panel enhances the hotel décor adding a touch of elegance and enabling guests to display their housekeeping requests on the corridor panel outside the room.

Enhance Pro Business Hotel

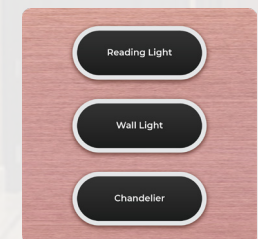

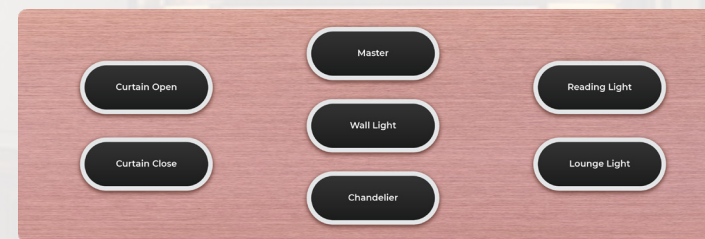

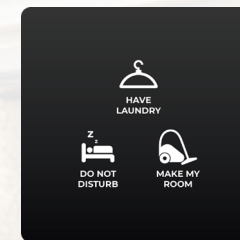

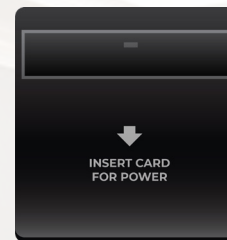

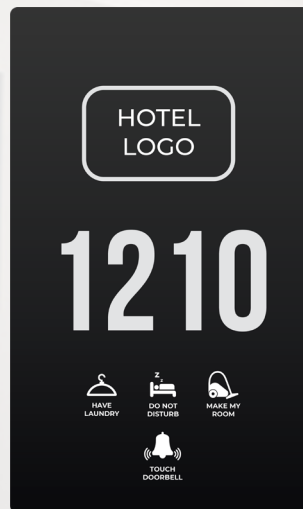

In addition to Enhance Standard, “Enhance Pro” includes fully customizable switches for intuitive control of lights. Guests can also use the bedside panel to conveniently set the lighting mood at the touch of a button.

Enhance Plus Luxury Hotel

In addition to the offerings of the Enhance Pro, “Enhance Plus” offers guests an unprecedented ability to control the lighting, temperature and shades - all from one intuitive tablet.

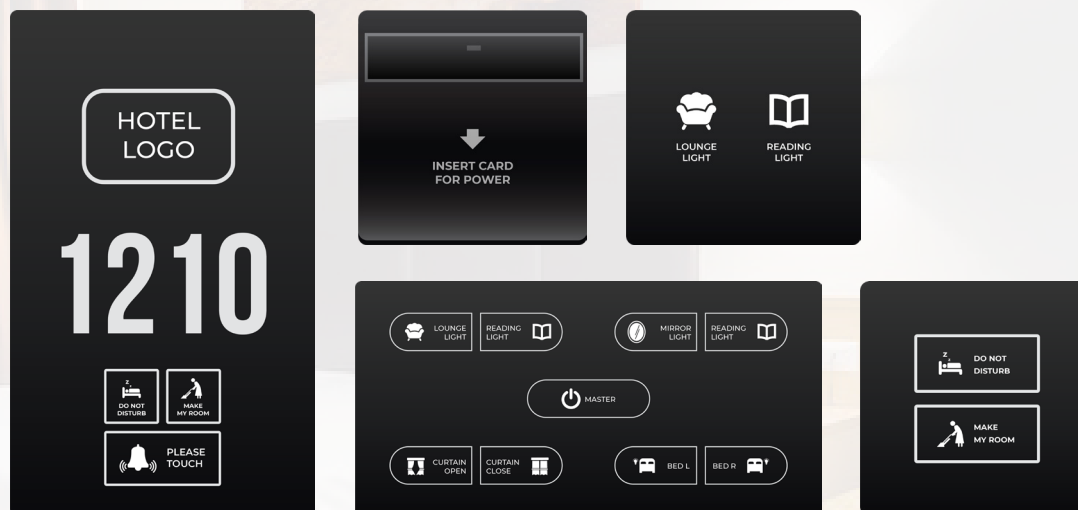

The interface of the tablet can be completely customized – including a dedicated digital “Food and Beverage” menu, Spa and Concierge service.

Enhance Air Existing Hotel

Most of Enhance's product ranges can be installed wirelessly, completely eliminating the need to breakdown and install new wiring. Our wireless solutions enable you to enhance your hospitality experience with significantly less cost in a short span of time.

The wireless protocol ensures communication between all the devices leading to a smooth and fluid guest experience.

Enhance Meetings

Conference halls today highlight the image of a hotel.

Change the ambience of your conference from a group discussion to a presentation theme with a touch of a button. Control your lighting, projector, screens, sound system, A/C , etc with a user friendly mobile app.

Enhance Energy Saving

Lighting

Our occupancy sensors automatically detect presence in corridors, staircases, utility rooms and common toilets turning on the lights as and when needed.

A/C

Air Conditioning is one of the highest energy consuming component in a hotel. Whether it is a central or a VRV system, control and schedule your AC via our smart HVAC system to maximize your energy savings.

Power Sockets

Leaving your heavy load appliances (dryers, ovens, washing machines) plugged in on standby mode continues to consume electricity on a daily basis. Using smart sockets drastically reduces this energy leakage and ensures optimal energy savings.

Enhance Security Solutions

CCTV

Installing security cameras helps to ensure proper management and security of your guests. Constant monitoring makes it impossible for unwanted activities to go unnoticed, so the latest in CCTV technology is always a must have.

Fire Alarm Systems

Fire safety is a long-term investment that must be carefully planned to ensure the continued success of the hotel. Whether it is a new or an existing hotel, different solutions are available to enhance the safety against fire accidents. Special attention should be given to guest rooms, kitchens, laundries, plant rooms, etc.

Why Enhance?

One Stop Solution

Whatever your need, we have the answer. When you choose Enhance, you are choosing to work with a team of professionals who will provide expert support through consultation, design, installation and after sales.

Easy to Use

Our products are designed to be more intuitive and highly functional – satisfying the needs of the guests and as well as of the management.

Maintenance

A maintenance contract will help to maintain an optimal performance of our system and your investment. It also ensures a more reliable experience and leaves a lasting impression of our combined efforts.

Comprehensive Package

Enhance provides a thorough one-on-one consulting during the process of designing. We are always on the client's side to customize best solution for their budget and requirements.

Outstanding Hospitality Experience

Nothing is left to chance. Our solutions catering to the comfort and safety in every little detail will make the difference between an ordinary stay and an delightful experience.

"Technology has changed the way we live our lives and it is inevitably changing the space we live in."

As a company, we have grown steadily over the last decade to become a reliable partner to provide customized solutions for homes and offices.

And so we continue today, with a number of highly functional offerings to the Hospitality sector.
