Home Automation Nepal

SMART LIVING SOLUTIONS

ABOUT US

Home Automation Nepal was established in 2009 with a vision to simplify life through technology. Over the years, we have established ourselves as the leader in providing smart living solutions for residential developments, offices and hotels.
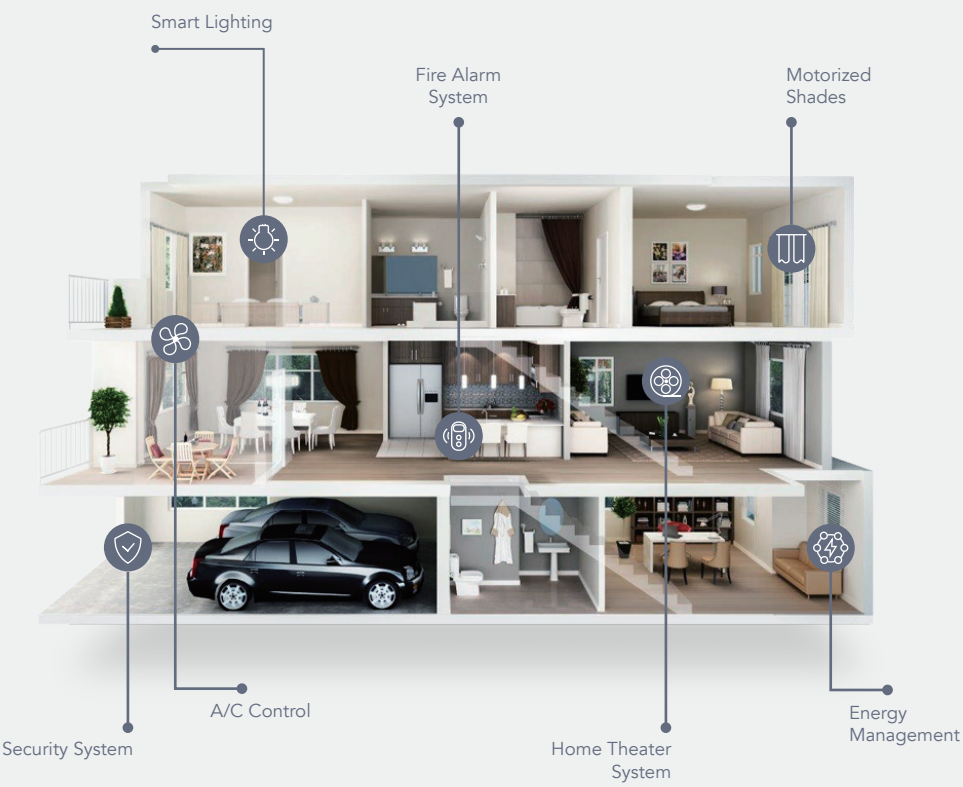

We are a one stop solution for all your automation requirements. We are consultants, sole distributors, system integrators and also after sales service providers.

We add value to your lives by making it more secure, convenient and enjoyable while also maximizing energy savings. Our solutions are affordable, user friendly and scalable like never before. They are also wireless allowing you to transform your existing home into a smart home overnight.

Home Automation Nepal is proud to be the first company to introduce digital living experience in Nepal and we look forward to provide our products and services to compliment your lifestyle.
